

# ENVIRONMENTAL PRODUCT DECLARATION

**EPD No.:** EPD-NK-2026-014

**Product:** Nordkern Thermal Wall Panel NK-TWP 120

**Programme:** Dummy Building Product EPD Programme

## Product information

Insulated wall panel consisting of a mineral wool core and protective facing layers. This fictional EPD is intended for document-processing and application testing.

## Manufacturer

Nordkern Building Systems GmbH  
Industriestraße 12, 80331 Munich, Germany

## Declared unit

1 m<sup>2</sup> of installed NK-TWP 120 wall panel with a reference service life of 50 years.

## Environmental indicators

| Indicator                        | Unit                   | Declared value          |
|----------------------------------|------------------------|-------------------------|
| Global warming potential — total | kg CO <sub>2</sub> eq. | 8.42                    |
| Ozone depletion potential        | kg CFC-11 eq.          | 1.20 × 10 <sup>-4</sup> |
| Acidification potential          | mol H <sup>+</sup> eq. | 0.031                   |
| Eutrophication potential         | mol N eq.              | 0.0068                  |
| Photochemical ozone creation     | kg NMVOC eq.           | 0.014                   |
| Primary energy, renewable        | MJ                     | 12.6                    |
| Primary energy, non-renewable    | MJ                     | 86.4                    |

## Life-cycle modules

A1–A3: Product stage; A4: Transport; A5: Installation; B: Use stage; C1–C4: End-of-life; D: Benefits beyond the system boundary. Values are fictional.

## Verification

This document is a dummy EPD and has not been independently verified or issued under any real EPD programme. Do not use for procurement, certification, regulatory submissions, or construction decisions.
